Installation.....	4

Notes

This Sophos Anti-virus client is customised for home use only for Macquarie University Staff and Students. Endpoints using this client cannot be managed through Sophos management console.

This installer performs a non-interactive installation. Which means you can view the progress of the installation but you don't need to or can't do any changes to the installation process.

This documentation was prepared using a computer running Windows 7. The look and feel of the screenshots may be bit different to the other versions of Windows.

Prerequisites

Computer Operating System must be Windows 2000 or later.

Removal

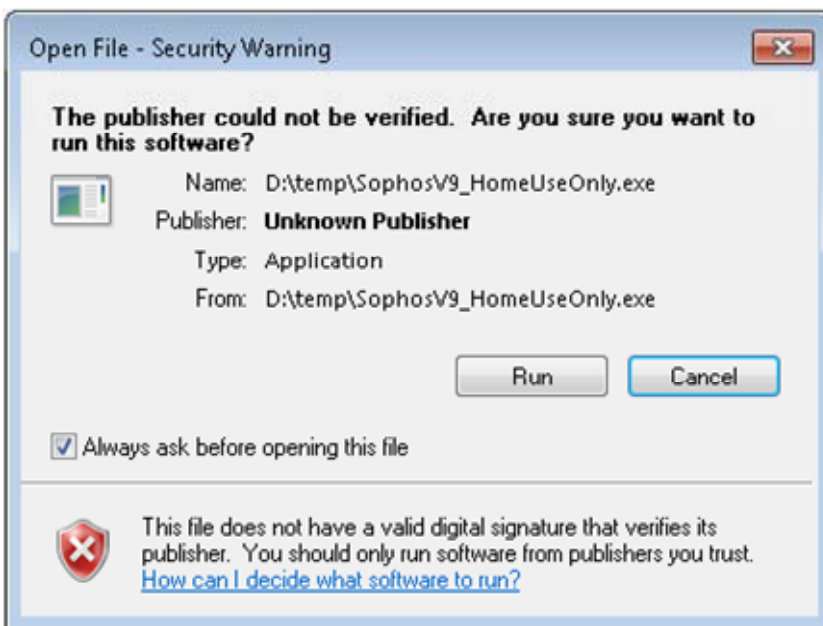

This installer will remove any existing Sophos installations and most of the other third party anti-virus program before installing the new version. Alternatively, you can remove Sophos or any other anti-virus program installed using Add/Remove programs in the Windows Control panel.

Installation

Double click on 'SophosV9_HomeUseOnly.exe'.

Select 'Run' on the security warning to start the installation process.

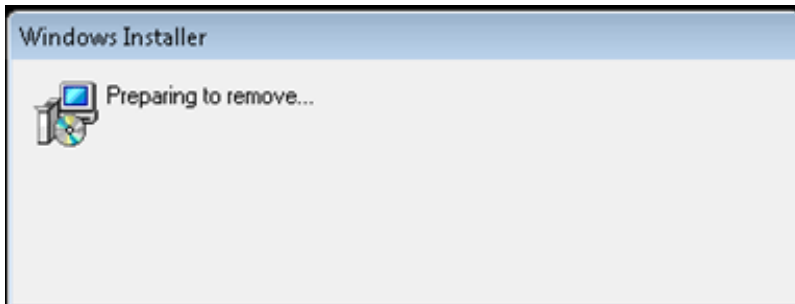

If the operating system is Windows 7 or Vista, select 'Yes' to User Access Control dialog message.

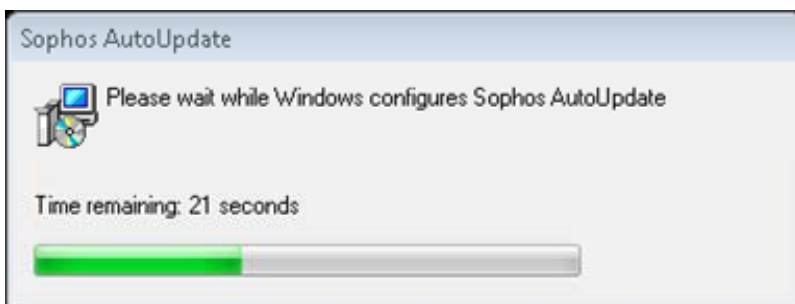

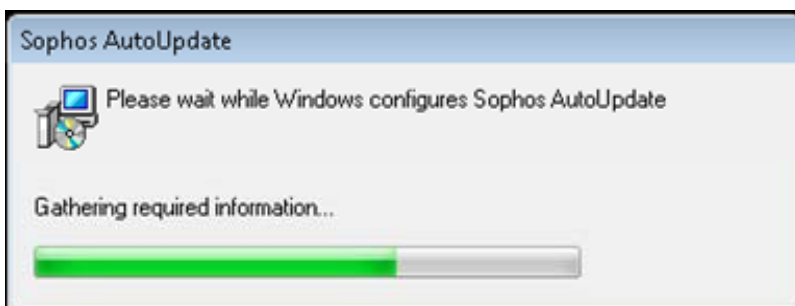

It may take few minutes to Windows installer to appear depending on the performance of the machine.

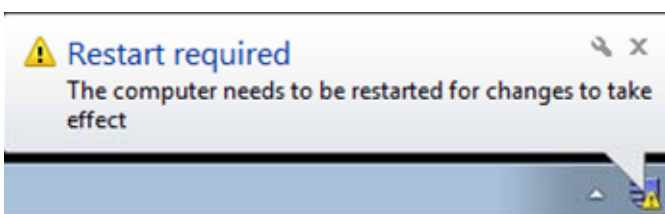

First it remove any existing Sophos installations

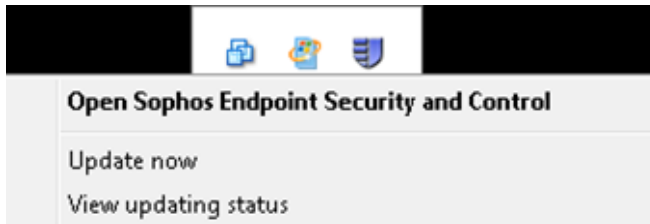

Then it will start installing Sophos Anti-virus and AutoUpdate.

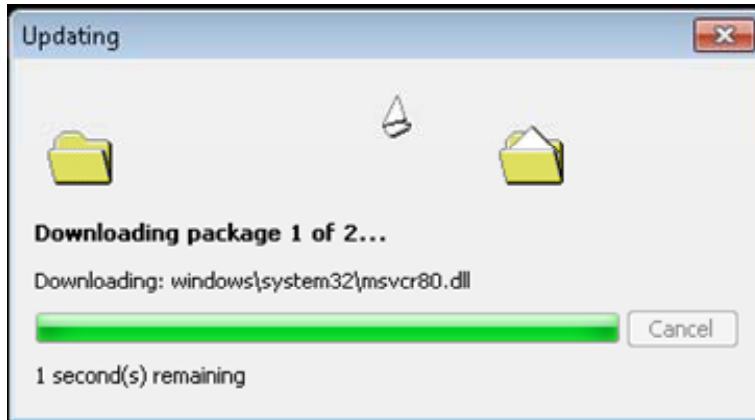

When the installation completed, Windows needs to be restarted for changes to take effect. You will be presented with a notification balloon from the Sophos shield in systems tray.

Before you restart, update the Sophos by right clicking Sophos shield in the systems tray and selecting 'Update now'.

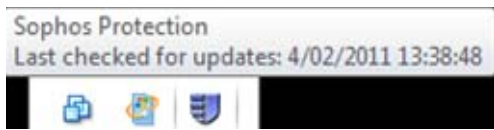

If the update process already started, select 'View updating status'. You will see series of steps happening on the update status window.

Restart Windows when the update is completed. After restart, will be presented with a notification balloon from the Sophos shield notifying your Sophos Protection is enabled.

Date and time of when Sophos last updated can be found if you move the mouse over Sophos shield in systems tray.

If you have queries, please contact Macquarie Informatics Service Desk on (02) 9850 4357.

More information regarding Sophos Anti-Virus can be found at the Sophos website (www.sophos.com).
