

# 2019 MAJOR – Human Resources

(Qualifying Major for Bachelor of Arts with the degree of Bachelor of Laws)

Human resource management involves the management of employees and of the employment relationship. The Human Resources major prepares students to respond to challenges and change in the workplace. A strong emphasis is on understanding the processes and techniques that create and maintain high-performing, efficient and ethical organisations. The major addresses aspects of day-to-day operations, strategic thinking and decision-making. Students will develop skills and techniques to manage change and sustainability, develop coaching and consulting skills, and learn how to formulate strategies to get the right employees, with the right skills, in the right place, at the right time.
