

2017 MAJOR – Marketing

(Qualifying Major for Bachelor of Arts with the degree of Bachelor of Laws)

The study of marketing allows you to understand how an organisation identifies and anticipates customers' needs, and organises resources to satisfy those needs in a way that builds long-term, mutually rewarding relationships. The marketing major looks at the evolution of marketing thought from production orientation to today. It covers gathering information on consumer needs and the marketing environment, tools the marketer uses to satisfy those needs - the marketing mix, the latest marketing theories, with examples of best practice in Australia and major economies overseas.
