

2018 MAJOR – Early Childhood

(Qualifying Major for Bachelor of Business Administration with the degree of Bachelor of Arts)

A major in early childhood enables graduates to work in a variety of areas including policy development, community services, and the media. The major in early childhood includes units of study which consider the learning, development and wellbeing of children aged birth to twelve years. Students explore a range of philosophical, theoretical and practical aspects related to the lives and learning of young children which will equip them to respond to the complexity and diversity of contemporary Australian society.

The table below is a suggested first year program guide to support your enrolment. Please make your selection of units after reviewing the requirements of your award in the 2018 Handbook:
