

# 2019 MAJOR – Education

(Qualifying Major for Bachelor of Business Administration with the degree of Bachelor of Arts)

The Education major draws on the various theoretical and professional perspectives that comprise this broad discipline. It provides investigation into the history, philosophy, sociology, psychology and politics of education, and addresses the complex and changing relationships between people, their learning, and their physical and technological contexts. Scholarship and research exploration into the theoretical framing and development of knowledge, its acquisition, representation and exchange is also central to educational study.

**The table below is a suggested first session for students beginning in Session 2, 2019.** Please make your selection of units after reviewing the requirements of your award in the 2019 Handbook:
