

# 2019 MAJOR – Linguistics

(Qualifying Major for Bachelor of Business Administration with the degree of Bachelor of Arts)

Completing a major in linguistics offers students the opportunity to study many aspects of human language in one of the most diverse Linguistics Departments in Australia. After foundational work in core linguistics study in their first year, students can begin to specialise in one or more of the sub-disciplines in which our staff research and teach, leading to a broad choice in their final year. A major in Linguistics aims to turn out graduates who have a broad understanding of how human language works, from highly technical knowledge such as the articulation processes in the mouth when we speak, through to sociocultural awareness of language use in multicultural settings.

**The table below is a suggested first session for students beginning in Session 2, 2019.** Please make your selection of units after reviewing the requirements of your award in the 2019 Handbook:
