

# 2019 MAJOR – Music

(Qualifying Major for Bachelor of Business Administration with the degree of Bachelor of Arts)

A major in Music offers students the opportunity to follow specialised musical interests, as well as gain a comprehensive understanding of diverse 20th and 21st century musics and industries. The Music major is suited to students wanting to undertake particular musical fields of study such as music production, singing, performance, popular music studies and world music. The Music major offers studies in popular music, music in socio-cultural contexts, culturally diverse musics, the music business, and screen music. Students choose from a range of practical streams and units in music production, vocal studies, guitar, rhythm studies and DJ practice. Musical creativities, performance and collaboration are incorporated within these units. Prior musical training is not a prerequisite.

**The table below is a suggested first session for students beginning in Session 2, 2019.** Please make your selection of units after reviewing the requirements of your award in the 2019 Handbook:
