

# 2019 Bachelor of Business Administration with the degree of Bachelor of Laws

Study business administration with law and gain a respected legal education with a strong understanding of business. You'll deepen your understanding of business law and prepare yourself for a managerial or legal career. In this program you'll study important business areas including marketing, management, accounting, statistics, computing, human resource management and finance. Macquarie Law will give you knowledge of legal principles and the critical and analytic skills to understand them. You'll study established areas such as constitutional law, international law, contract law and family law. You'll also look at areas of contemporary concern such as consumer law, environmental law, health law and information technology law.

**The table below is a suggested first session for students beginning in Session 2, 2019.** Please make your selection of units after reviewing the requirements of your award in the 2019 Handbook:
