

2019 MAJOR – Cognitive and Brain Sciences

(Qualifying Major for Bachelor of Psychology (Honours) with the degree of Bachelor of Human Sciences)

Deciphering the operations of the mind and brain is one of the greatest scientific challenges facing human society in the 21st century. This major is for anyone interested in exploring how the mind and brain work. Students gain a solid background in a wide spectrum of exciting research methodologies and disciplines within the cognitive and brain sciences. Students will have the opportunity to pursue a flexible program of coursework and acquire strong research skills in neuroscience, psychology, computer science, linguistics, philosophy, biology, and anthropology. This major offers an optimal combination of intellectual breadth and depth, giving students exposure to foundational and cutting-edge research on a diverse range of challenging and engaging topics that will complement the studies in the Psychology component of the double degree.

Admission to the honours (fifth) year of this program will be determined by academic merit. The honours year commences in semester 1 only and is two semesters in duration. In this year students will plan and engage in an independent and sustained critical investigation and evaluation of a chosen research topic that will match their strengths and career interests.

The table below is a suggested first session for students beginning in Session 2, 2019. Please make your selection of units after reviewing the requirements of your award in the 2019 Handbook:

www.handbook.mq.edu.au/2019/DegreesDiplomas/Degree/Bachelor+of+Psychology+%28Honours%29+with+the+degree+of+Bachelor+of+Human+Sciences

Suggested First Session

Session 2, 2019

Unit Code	Unit Name
PSYC105	Introduction to Psychology II
COGS101	Delusions and Disorders of the Mind and Brain
LING111 or STAT170 or Elective	Language: Its Structure and Use Introductory Statistics ANTH, SOC or PHL unit at 100 level
Elective	Choose an elective unit

- You must also meet the general requirements for the degree for which you will qualify.
- It may be possible to satisfy the requirements of your degree by taking a different selection of units in your first session from those suggested above.
- Consider what units you will want to study in second and third year. Prerequisite requirements for those units must be completed prior to enrolment in the higher-level unit.
- You can receive specific program advice from the faculty at any stage in your degree by lodging a "Program Advice" enquiry via <http://ask.mq.edu.au>.
- Progression to honours is completed in the 5th year, subject to a specified level of high achievement. On completion of this degree, students are able to proceed to postgraduate training in psychology and towards registration as a psychologist.
