

2019 MAJOR – Business Information Systems

(Qualifying Major for Bachelor of Science with the degree of Bachelor of Laws)

Combining your science degree with law will expand your career options, by specialising in a particular area of science while expanding your knowledge of legal principles and the critical and analytic skills to really understand them. You will study established areas such as constitutional law and contract law, and also contemporary areas such as consumer law and environmental law. A Business Information Systems major will give you the IT skills to use, manage and develop business information systems for accounting, marketing and finance. By completing the BIS major you will learn about different types of information systems, the content within them, and the roles they play in organisations.

The table below is a suggested first session for students beginning in Session 2, 2019. Please make your selection of units after reviewing the requirements of your award in the 2019 Handbook:

www.handbook.mq.edu.au/2019/DegreesDiplomas/Degree/Bachelor+of+Science+with+the+degree+of+Bachelor+of+Laws

Suggested First Session

Session 2, 2019

Unit Code	Unit Name
ACCG100	Accounting in Society
ISYS114	Introduction to Database Design and Management
LAW115	Foundations of Law
Elective	Choose an elective unit

- You must also meet the general requirements for the degree for which you will qualify.
- It may be possible to satisfy the requirements of your degree by taking a different selection of units in your first session from those suggested above.
- Please note that you should enrol in LAW109, LAWS104 and LAWS108 in 2020.
- Consider what units you will want to study in second and third year. Prerequisite requirements for those units must be completed prior to enrolment in the higher-level unit.
- You can receive specific program advice from the faculty at any stage in your degree by lodging a “Program Advice” enquiry via <http://ask.mq.edu.au>.
