

2019 MAJOR – Criminology

(Qualifying Major for Bachelor of Social Science with the degree of Bachelor of Laws)

A major in Criminology provides students with the foundations for pursuing both professional careers and postgraduate study in criminology and criminal justice. Structured as a multi-disciplinary program of study, Criminology allows you to incorporate social sciences; legal dimensions and anthropological considerations into your academic program. Drawing on a diverse range of expertise, the program provides students with the opportunity to gain an understanding of the incidence of different types of crime, deviance and victimisation, as well as their economic, social, and policy contexts.

The table below is a suggested first session for students beginning in Session 2, 2019. Please make your selection of units after reviewing the requirements of your award in the 2019 Handbook:
